

3 Empahies - Discovery Questions

BUSINESS EMPATHY AREAS

No.	Area	Key Question	White	Light Green	Mid Green	Dark Green
1	Strategy & Purpose	Is sustainability embedded in strategic vision?	No stated goals	Compliance-driven mission	Purpose integrates across departments	Regenerative, mission-led, ecosystem restoring
2	Governance & Leadership	How is sustainability governed?	No governance assigned	Board-level oversight	Embedded in executive performance	Leadership as public transformation advocates
3	Culture & Engagement	How embedded is sustainability in daily behaviour?	No awareness	Ad-hoc training	Structured engagement & champions	Regenerative culture & ownership
4	Materiality & Risk	How are material issues and systemic risks mapped?	No mapping	One-time assessment	Dynamic system tools used	Full feedback loops with planetary boundaries
5	Transparency & Accountability	How transparent is performance?	No disclosures	Basic ESG reports	Real-time, verified metrics	Open data, participatory auditing
6	Metrics & Impact	Are metrics focused on impact?	Only financial tracked	Scope 1 & 2 tracked	Scope 3, social, biodiversity tracked	Regeneration, wellbeing, community wealth measured
7	Product & Service Innovation	Are products influenced by sustainability?	Profit-focused design	Eco-efficiency improvements	Circular design principles adopted	Products restore ecosystems & enable communities
8	Operations & Circularity	How embedded is sustainability in operations?	Sustainability external to operations	Certifications & audits in place	Circular, resilient, traceable supply chain	Closed-loop, zero-waste, ecosystem restorative operations
9	Finance & Investment	Are finances aligned with regeneration?	No sustainability budgets	Green bonds or ESG screens	Carbon pricing & impact-first investment	Capital directed to ecosystem repair & social innovation
10	Data & Digital	How is digital tech used for sustainability?	No data captured	Basic tracking platforms	Integrated real-time ESG systems	AI, digital twins for regenerative modelling
11	Policy & Regulation	How does the organisation engage with policy?	No policy awareness	Compliance with existing frameworks	Strategy aligned to future policy shifts	Co-creation of regenerative legislation
12	Collaboration & Partnerships	How strategic are sustainability partnerships?	Operates in isolation	Member of networks	Strategic alliances for circular infrastructure	Builds coalitions for system transformation
13	Innovation & R\&D Alignment	Is innovation directed to sustainability?	Profit-driven R\&D	Incremental sustainability innovations	Circular, inclusive R\&D across departments	Regenerative, mission-led innovation
14	Learning & Adaptation	How does the organisation learn & adapt?	No learning systems	Basic sustainability training	Ongoing feedback loops & data tools	Regenerative learning cycles & reflective practice
15	Crisis Readiness & Resilience	Is the organisation ready for disruptions?	No adaptation strategy	Contingency plans for known risks	Stress testing & adaptive planning	Antifragility & distributed risks

						systems thrive in uncertainty
16	Regenerative Business Identity	Is the business redefining its role in a planetary emergency?	Profit-maximising actor	Risk-driven sustainability response	Purpose-led exemplar for circular economy	Movement partner, moral actor, ecological trustee

HUMAN EMPATHY AREAS

No.	Area	Key Question	White	Light Green	Mid Green	Dark Green
17	Stakeholder Engagement	How are stakeholders shaping the agenda?	Passive recipients	Surveys & reports	Regular co-creation sessions	Long-term participatory governance
18	Behavioural Change & Incentives	How are employees enabled to act?	No connection to roles or performance	Basic training offered	Sustainability linked to performance	Regenerative leadership & peer learning embedded
19	Customer Engagement	How are customers empowered?	No sustainability communication	Product badges or claims	Education & decision-making tools provided	Co-creation of regenerative solutions with customers
20	Human & Community Wellbeing	How is wellbeing supported internally & externally?	No wellbeing or equity focus	Standard benefits & CSR efforts	Living wages & equity assessments	Long-term partnerships regenerate communities
21	Equity, Justice & Inclusion	How is justice embedded in efforts?	No DEI considerations	Diversity pledges or training	Equity-centred design & justice procurement	Anti-oppressive, intersectional systems change co-led

PLANETARY EMPATHY AREAS

No.	Area	Key Question	White	Light Green	Mid Green	Dark Green
22	Ecosystem Stewardship	Is ecological regeneration supported?	No involvement	Offsets or biodiversity pledges	Active regeneration projects	Place-based stewardship & infrastructure investment
23	Value Chain & Traceability	How aligned & traceable are partners?	Focus on cost & delivery	Supplier codes & audits	Full traceability across supply chain	Co-governance with regenerative suppliers
24	Circular Design & Materials	Are materials & design circular?	No guidance or lifecycle thinking	Single-attribute improvements	Circularity design frameworks used	Biomimicry & net-positive materials applied
25	Climate & Biodiversity Integration	How embedded are climate & nature in decisions?	No consideration	Carbon reporting & disclosure	Science-based targets & nature-positive principles	Regenerative action drives investment
